Ghanaian Flag Bunting

What you need:

- String
- 12 pieces of A4 paper
- Red, yellow, green and black colouring pens or pencils
- Scissors
- Sellotape

1. Print out the template of a Ghanaian flag, or copy the design onto an A4 piece of paper (or smaller, if you prefer)
2. Colour the flag in with the correct colours, using the example below to guide you!
3. Draw and colour more copies of the flag, remembering to keep the colours the same! Do as many as you want!
4. Cut a piece of string as long as you would like your bunting to be. Careful with the scissors, get an adult to help if you need!
5. If you would like, you can customise the edges – you can keep them as a rectangle (like below), cut them so they are pointy (like the picture above), or cut the long sides so they are like a triangle! Again, be careful with the scissors or get an adult to help!
6. Use sellotape to stick each flag onto one piece of string, spacing it out.
7. Hang up your bunting and enjoy the bright colours of the Ghanaian flag!
